MADE IN GERMANY

Wassermann is a medium-sized, owner-operated company with head office in Hamburg. We design and produce high-quality technical devices in Germany. Our main users are dental laboratories, dental clinics and various industrial areas worldwide.

Why a Wassermann product?

Wassermann products are manufactured from high-quality materials and the proportion of plastics used is intentionally kept as low as possible. Our devices are known for their suitability for daily use, functionality and longevity. As a result, the users place high levels of trust in the Wassermann brand. We feel it is our duty to support our customers on a daily basis when it comes to safety, service and productivity. Technological perfection, optimum quality and especially sustainability are the benchmarks we set. Thanks to the combination of these values, the family-owned company, since its establishment in 1927, has gained worldwide recognition as a manufacturer of high-quality products.

Trimmer HSS-AZ & HSS-ZA

Perfect grinding in the smallest space: Whether it's the powerful HSS-AZ wet trimmer or the HSS-ZA combination trimmer with additional polishing spindle - excellent results guaranteed for dental models, thanks to their powerful motors and the almost wear- and maintenance-free technology used. The outer housing cools the motor so there is no risk of dirt entering. And of course both units are low-noise and vibration-free.

The foil grinding disc (usable on both sides) or the Dia-Quick grinding disc (partially diamond coated) could be used

Powerful rinsing of disc and interior prevents soiling of the trimmer disc

Sturdy, oxidation-free bench with longitudinal slots and side openings – avoids water spills

Easy to open using rear handles, no tool kit necessary

High-quality housing, plastic powder coated
